Stakeholder	Date	Type of consultation	Overview	Topics raised	Alcoa's response
STATE GOVERNMENT					
Water Corporation (Regional contact for Huntly mine)	16-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
North Dandalup Primary School	16-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Karnet Prison	20-Jul-24	Community Information Session	A representative from Karnet Prison attended one of the three community information sessions Alcoa hosted in Jarrahdale.	Alcoa provided an overview of the MMP consultation process and its purpose. Discussed Alcoa's operations along Kingsbury Drive, including visibility and noise No formal feedback was provided by Karnet Prison.	Alcoa committed to follow up and organise a schedule of regular meetings to keep the stakeholder informed about its mining activities in the area, and projects of relevance and interest.
Department of Biodiversity, Conservation and Attractions (DBCA) - Bunbury Regional Office	22-Jul-24	Face to face	Letter of invitation to meet and consult was accepted.	The following topics were raised by DBCA representatives and discussed: - Willowdale's future mine plans surrounding Logue Brook Dam including: - buffer zones around recreation and commercial areas - assessment and management of potential noise, dust and visual impacts - road planning and maintaining public access to roads - Communication framework and intended arrangements for seed collectors, commercial pickers, apiarists, and public firewood areas in Larego as the mine expands. - Progress on updating the Recreational Trails and Facilities Management Plan. - Buffer zones for the Munda Biddi Trail.	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa. Following the meeting, Alcoa extended an invitation to meet with DBCA every two months to maintain the channel of communications.
STATE AND FEDERAL MEMBERS OF PARLIAMENT					
Federal Member for Forrest Hon Nola Marino MP	14-Jun-24	Face to face	Letter of invitation to meet and consult was accepted.	Topics raised specific to the draft MMP by the Federal Member for Forrest included: - Assurance that nearby landowners and business owners were also offered the opportunity to consult on the MMP, including the Lake Brockman (Logue Brook Dam) Tourist Park. - Alcoa's commitment and actions being taken to move its operations away from drinking water dams.	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa.
Member for Murray Wellington Robyn Clarke MLA	16-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Member for Darling Range Hugh Jones MLA	16-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Member for Dawesville Mrs Lisa Munday MLA	17-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Minister for Regional Development, Fisheries Hon Don Punch MLA Member for Bunbury	23-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Minister for Agriculture and Food, Forestry Hon Jackie Jarvis MLC Member for South West Region	23-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Member for South West Region Hon. Sophia Moermond MLC	23-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Member for South West Region Hon. Dr Steve Thomas MLC	23-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Member for South West Region Hon. Dr Sally Talbot MLC	23-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Jodie Louise Hanns MLA Member for Collie Preston	23-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
LOCAL GOVERNMENT AUTHORITIES					
Shire of Harvey	20-May-24	Face to face Tour of Mine	Letter of invitation to meet and consult was accepted by the Shire of Harvey. A presentation and tour of Alcoa's Willowdale mine and rehabilitation activities was undertaken.	The following topics were raised by the Shire and discussed: **Traditional Owner knowledge** - Ensuring the integration of Traditional Owner knowledge into Alcoa's rehabilitation and forest management practices. - Capturing and integrating the local Aboriginal cultural knowledge of the Harvey Aboriginal Corporation into mine planning activities. **Water management** Contingency planning for future water supply as a result of a drying climate. **Social surrounds - Trails** Co-existence of Alcoa's mining operations and the shire's strategy and aspirations for its Trails and Adventure Strategy. Early sharing of long term mine plans so that mitigation measures can be put in place that support the continuity of the Munda Biddi Trail. **Noise - Blasting** Blast planning processes that focus on minimising impacts to neighbours **Post mining rehabilitation** Ensuring rehabilitated pits blend in with the Surrounding forest.	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa.

Stakeholder	Date	Type of consultation	Overview	Topics raised	Alcoa's response
Shire of Harvey - Concept Forum	11-Jun-24		Following Alcoa's presentation to the Shire of Harvey on 20 May, the Shire extended an invitation for Alcoa to present and consult on the MMP with the Shire's Concept Forum. This Forum includes full Shire Council and Executive representation.	The following topics were raised by members of the Concept Forum and discussed: **Environmental Impact and Mitigation Strategies** Biodiversity Protection: Measures to protect the local flora and fauna, especially any endangered species. Water Management: Detailed plans for water usage and recycling to ensure sustainable water management practices are in place. **Tourism Trails** Mining and tourism coexisting: A balanced approach where mining activities and Harvey Region trails development can coexist, contributing to both economic and recreational opportunities for the community **Community Engagement** Regular updates: Implementing a regular update mechanism to keep the local community informed about the progress and any changes in the mining operations **Health and Safety Protocols** Emergency Preparedness: A detailed emergency response plan in case of accidents or environmental hazards to understand the impact on local health and emergency response services. **Monitoring and Compliance** Independent Audits: Incorporating independent third-party audits to provide unbiased assessments of compliance with the MMP. Public Reporting: Making the results of the monitoring and compliance reports available to the public to maintain transparency and build trust with the community.	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa.
Shire of Waroona	13-Jun-24	Face to Face	Letter of invitation to meet and consult was accepted by the Shire of Waroona	Alcoa met with Shire representatives to share and discuss Willowdale mine's draft 2025 - 2029 MMP map. A range of topics related to the draft MMP and other operational matters were discussed. The Shire advised a written response to the draft MMP would be provided to Alcoa.	
	25-Jun-24	Written	Following Alcoa's meeting with the Shire of Waroona, a written response was received from the Shire CEO	Topics addressed in the Shire's written response to the draft MMP were as follows: - The Shire's position on mining in the Northern Jarrah Forests aligns with the Peel Alliance Policy Position Statement - specifically in relation to the protection of the region's biodiversity assets. - The Shire is seeking Alcoa's commitment to ongoing maintenance of Shire roads which are heavily used as part of the mining process. - This Shire wished to be notified prioir to log haul campaigns post land clearing to inform their activities. The Shire supports the: - ministerial approval conditions applied in the preceding Mining and Management Program. - use of fauna spotters for clearing activities and the safe relocation of fauna should the need arise. - commitment by Alcoa to catch up on net rehabilitated land.	All topics raised in the Shire's written response have been noted.
Shire of Murray	13-Jun-24	face to face	Letter of invitation to meet and consult was accepted by the Shire of Murray	The following topics were discussed: - annual clearing amount - annual rehabilitation targets and acceleration program - future mining program including early mining in a northern portion of Holyoake mine region - the formal protection by the WA Government of the Dwellingup no mining zone created by Alcoa in 2023	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa.
Shire of Serpentine Jarrahdale	3-Jun-24		Letter of invitation to meet and consult was accepted by the Shire of Serpentine Jarrahdale	The following topics were raised and discussed with the Shire of Serpentine Jarrahdale: - Alcoa's operations in line with the Section 6 Exemptions - Proposed next mine regions, and total mine life - Mine life of Myara North - Rehabilitation program and performance - Alcoa's consideration to exclude other mining operations from areas it has deemed to be no mining zones	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa.
City of Mandurah	25-Jun-24	face to face	Letter of invitation to meet and consult was accepted by the City of Mandurah	THe following topics relevant to the draft MMP were raised by the City of Mandurah and discussed: - Responsiveness of Alcoa's rehabilitation to the drying climate and measures to ensure success - Evidence of Alcoa's rehabilitation success, including species richness - Interested in Alcoa's extensive and ongoing research program, including pre, during and post mining surveys, and rehabilitation monitoring	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa.
Shire of Wandering	16-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Peel Alliance	20-Feb-25	Face to face	Request by BSEC for Alcoa to consult with the Peel Alliance in addition to the consultation Alcoa undertakes with each LGA stakeholder in its mine region.	The following topics were raised and discussed with the Peel Alliance: - Huntly and Willowdale mines' draft mining consultation maps - Potential impacts to previously rehabilitated areas in O'Neil mine region as a result of Alcoa's proposal to undertake future mining in the region.	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa. Alcoa confirmed no rehabilitated areas in O'Neil will be mined for bauxite. To reduce clearing impact, Alcoa will design an efficient haulage network which may impact on small parts of previously rehabilitated area. In accordance with Alcoa's standard practices, all impacted areas would be subject to its ongoing rehabilitation program.

TOURISM, RECREATION AND TRAILS BUSINESSES, USERS AND INTEREST GROUPS					
Stakeholder	**Date**	**Type of consultation**	**Overview**	**Topics raised**	**Alcoa's response**
Munda Biddi Trail Foundation (MBTF)	16-May-24	Face to face Tour of mine	Letter of invitation to meet and consult was accepted by MBTF. A presentation and tour of Alcoa's Willowdale mine and rehabilitation activities was undertaken.	The Munda Biddi Trail Foundation expressed its gratitude to Alcoa for its continued support and partnership, and for inviting the Board to share its views and contribute to the MMP stakeholder consultation process. The following topics were raised by the MBTF Board and discussed. **Future potential impacts on the Munda Biddi Trail** MBTF's priority is to preserve the existing trail corridor where possible. However the Board generally accepts some level of disturbance to the Munda Biddi Trail as it traverses the length of Alcoa's mineral lease as was explicitly consented at the trail's inception. If there is disturbance or required realignments, the Board's preference is as follows: - All proposed impacts to the trail are carefully considered within Alcoa's Recreational Trails and Facilities Management Plan (RTFMP), in consultation with DBCA's Recreation and Trail Unit and the MBTF. - Realignments should minimise the disturbance to the continuity of the trail, the trail users, and the ride experience. - Diversions and realignments must be equal to or better than the current experience. Where a new section or realignment of a trail is required the MBTF requests: - Alcoa follow the 8-Step process of trail development and the construction standards in the Western Australian Mountain Bike Management Guidelines. - Department of Biodiversity, Conservation and Attractions (DBCA) (Recreation and Trails Unit) manage the planning process for realignments, in consultation with MBTF and Alcoa, and for Alcoa to fund this work. - The planning and design of new trail sections consider the track design, quality and grade to maximise interaction with the natural surrounds and rider experience, maintain connectivity to towns and facilities, and provide appropriate buffers between mining and other recreational activities such as 4WD tracks. **Munda Biddi Trail Spur - Logue Brook Dam to Harvey (Nth) & Harvey to Yarri campsite (South):** - The MBTF and DBCA have endorsed the Shire of Harvey's concept for a spur trail, However, it sees the spur trail as a connector to the town of Harvey to allow riders to link into the MBTF. - The MBTF does not see the Trail Spur as an opportunity to realign the trail and would seek assurance that the current Munda Biddi Trail alignment corridor remains secured within	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa.
Bibbulmun Track Foundation	16-May-24	Email	Bibbulmun Track Foundation replied to letter of invitation to consult on the MMP and advised it would be in touch if the Board wished to meet.	A request was received from the Executive Director for a website link to the MMP. No request to consult on the MMP was received by Bibulmun Track.	Alcoa responded with a website link to the approved 2023 - 2027 MMP published on its website and a 2025-2029 MMP Fact sheet.
Bodhinyana Monastery and Reflection Centre	28-May-24	Face to face	Letter of invitation to meet and consult was accepted by representatives of the Monastery	The following topics were raised by the Monastery and discussed: - Proposed future mining and duration of mining in Myara mine region. - Protection of the Northern Jarrah Forest - Consideration by Alcoa for buffer zones around the Monastery and Reflection Centre - Direct impacts including noise and dust - Protection of nearby water streams and creeks from the risk of contamination	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa. Alcoa extended an invitation to representatives from the Monastery to tour it's Huntly mine operations and view rehabilitation areas.
	4-Jun-24	mine tour	Following consultation with the Monastery, representatives accepted an invitation to tour Alcoa's Huntly mining operations and rehabilitated areas.	The following topics were raised by the Monastery and discussed: - Rehabilitation timeframe, including process and the sourcing of plants ad seeds - Addressing visual amenity and noise impacts along Kingsbury drive - Would like to receive an annual rehabilitation / environmental report on Alcoa's performance	All topics discussed were addressed during the tour. Alcoa noted the request for an annual rehabilitation / environmental performance report.
Scotch College	29-May-24	Email	Scotch College replied to a letter of invitation to consult on the MMP. Scotch College has owned an outdoor education centre for 40 years which is around 10 kilometres to the north of Willowdale mine.	Stakeholder did not request a consultation meeting, however was interested in receiving an overview of Alcoa's future mine plans in the proximity to the Lane Poole Reserve and Nanga Brooke.	Alcoa responded by email to request for information.
Tracks and trails group	9-Jun-24	email	Response received following invitation to consult	Exchange of communications between Alcoa and stakeholder including the sharing of further information about the MMP and the consultation process. Stakeholder felt it was beyond the capabilities of their group to offer formal consultation, however advised that their members would be against any decrease in available bushwalking areas due to bauxite (or other) mining activities.	
Recreation and tourism facility	17-Jun-24	Face to face	Letter of invitation to meet and consult was accepted.	General discussion about Alcoa's future mine plans across Willowdale and Huntly mines. Limited feedback provided on the 2025 - 2029 MMP however stakeholder is keen to be kept informed of Alcoa's current operations and future mine plans.	Alcoa to continue to invite stakeholder to participate in future MMP consultations
WA Rogaining Association (WARA)	21-Jun-24	Face to face	Letter of invitation to meet and consult was accepted.	The discussion included sharing information about Alcoa's current and future mining program and mine planning process. Topics raised by WARA and discussed included: - Forest restoration and hand back process - Environmental management, including dieback - Operating in water catchment areas	Following the meeting Alcoa provided further information to WARA about the draft MMP and future proposed mining in Holyoake.
Tracks and trails interest group	10-Jun-24	Community Information session	As part of enhancing Alcoa's MMP consultation with the community, three open-house community information sessions were held in Pinjarra where community members and groups could consult on the MMP with Alcoa.	The discussion included sharing information about Alcoa's current mining area in Myara mine region and its future plans. Specific topics raised included: - future mining in the northern portion of Holyoake Development Envelope - future mining in relation to existing tracks and trails - the approvals process including transitioning all new mine regions to the contemporary EPA assessment process - rehabilitation program, including how Alcoa undertakes rehabilitation of mined areas, and its success rate	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa.
Peel Trails Group	14-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Southern Hills Mountain Bikers	14-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Serpentine Jarrahdale Trails Working Group	14-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Westcycle	23-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
HikeWest	23-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	

Stakeholder	Date	Type of consultation	Overview	Topics raised	Alcoa's response
Trails WA	23-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Outdoors WA	23-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
LOCAL BUSINESSES AND INDUSTRY GROUPS					
Keysbrook Produce	16-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Dandy Bean	16-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Bistro on the Dam	16-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Mandurah and Peel Tourism Organisation	17-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Peel Chamber of Commerce and Industry	17-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Business owner located near Willowdale Mine	27-May-24	Email	Response received following invitation to consult	Stakeholder has participated in MMP consultation in previous years and reiterated their request that as part of Alcoa's mine planning process it seeks to avoid potential visual amenity and noise impacts on their tourism business	
Peel Development Commission	25-Jun-24	Email	In response to Alcoa's invitation to consult, PDC thanked Alcoa for the opportunity and no consultation was required.		
TRADITIONAL OWNERS					
Gnaala Karla Booja (GKB) Aboriginal Corporation	May, 2024	Presentation	As part of a capacity-building workshop Alcoa hosted for GKB representatives, an overview of the draft 2025 - 2029 MMP mine maps were presented and discussed with GKB.	Alcoa advised GKB that MMP consultation was currently underway. In line with Alcoa's previous commitment to GKB, it would facilitate a follow up consultation session on the draft MMP once it had been updated and submitted	Alcoa to organise MMP consultation session with GKB once draft has been submitted.
Harvey Aboriginal Corporation (HAC)	5-Jun-24	Face to face	Letter of invitation to meet and consult was accepted.	The following topics were raised by HAC and discussed. **Bauxite Crusher** Duration it would remain in its current location (Larego) Potential future relocation **Aboriginal Heritage Surveys** Custodianship of the land is very important to local Elders, as is the need to ensure sacred sites and significant areas are preserved. Aboriginal Heritage surveys undertaken in the local area should inovlve Elders from the area HAC asked that a proper survey of the Hoffman Mill area was undertaken. General discussion Other topics of interest discussed in the context of the MMP included: - Forest Restoration - Operating in water catchment areas - Environmental management - Fauna management - Operational and blast noise management - Dieback management	Alcoa will continue to work closely with HAC as it progresses its current and future mine plans. Alcoa will also look for opportunities to involve local people in the Aboriginal Rangers program in its rehabilitation and other environmental management programs.
Winjan Aboriginal Corporation	17-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Murray Districts Aboriginal Association	17-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Waroona Aboriginal Corporation	23-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
ENVIRONMENTAL AND CONSERVATION GROUPS					
Harvey River Restoration Taskforce (HRRT)	20-Jun-24	Face to face	Letter of invitation to meet and consult was accepted.	The following topics were raised by HRRT and discussed: **Water** - potential impact on water quality as Willowdale mine is now in the headwaters of the Harvey River - impacts of mining on water movement and biodiversity - monitoring of groundwater prior to mining - impacts of blasting and excavation on how surface water and groundwater moves within the catchment - impact of clearing on local climate and catchment water yield (changes in transpiration, evaporation, temperature and rainfall) - establishing a minimum buffer between the river and mining activities to protect the water resource - hydrological changes due to mining which have an impact aquatic fauna lifecycles - measures Alcoa proposes to take to prevent sediment flowing along streamlines - understanding the additional water monitoring measures being undertaken by Alcoa and DWER, and the sharing of this information with the public **Rehabilitation** - Restoring rehabilitated land to full functionality, and timeframe for returning 10% of rehabilitated mined areas to the State - Rehabilitation approach, including duration of rehabilitation and monitoring program to achieve a fully functional ecosystems - Approach to monitoring flora and aquatic & terrestrial fauna pre and post mining areas	Many of the topics discussed where addressed in the meeting and feedback recorded by Alcoa. Alcoa is coordinating responses to questions which required further information and will organise a follow up meeting with HRRT.

Stakeholder	Date	Type of consultation	Overview	Topics raised	Alcoa's response
WA Forest Alliance (WAFA)	8-Aug-24	Face to face	Request by WAFA to meet and consult on the MMP.	Alcoa met with WAFA representatives to share and discuss the draft 2025 - 2029 MMP maps. A broad range of topics related to the draft MMP and other operational matters were discussed. WAFA advised a written response to the draft MMP would be provided to Alcoa. Both parties agreed it would be beneficial to meet periodically.	
	26-Aug-24	Written	WAFA provided a written response following their meeting with Alcoa.	WAFA's response included the following feedback which was accompanied with maps to define areas referenced in their response: - Areas in the draft MMP defined as having very high or extremely high conservation value, as identified in the Beyond 2024 report, being added to the conservation estate - Exclusion of areas in the Huntly mine plan to maintain visual amenity along the Bibbulmun track	All topics raised in WAFA's written response have been noted.
Mandurah Environmental and Heritage Group (MEHG)	14-Jun-24	Face to face	Letter of invitation to meet and consult was accepted.	An initial meeting was held with representatives from MEHG to discuss the draft 2025 MMP and gather further information ahead of a planned tour of Alcoa's mining operations.	Following meeting on 14 June, Alcoa provided additional information requested from MEHG and organised a suitable time to tour its operations.
	11-Jul-24	Tour	Representatives of MEHG toured Alcoa's Huntly mining operations and rehabilitation areas	The tour provided MEHG representatives to see firsthand Alcoa's mining operations and its rehabilitation practices. Technical specialists from Alcoa's environmental team joined MEHG to discuss Alcoa's operations and answer questions.	
	12-Aug-24	Written	MEHG provided Alcoa with its formal response to the draft 2025 - 2029 MMP	MEHG's comprehensive response addressed a broad range of factors. Those relevant to the draft MMP included: - Management and protection of flora and fauna - Health and protection of waterways and marine life - Revegetation methodology and diversity - Management of climate change impacts on rehabilitation schedules - Protection and enhancement of rehabilitated areas	Feedback received and noted by Alcoa.
Urban Bushland Committee (UBC)	29-May-24	Email	UBC replied to Alcoa's invitation to consult indicating an interest in participating, but had been unable to find a representative to attend.	No consultation was undertaken.	Alcoa replied with details of a number of the community information sessions it was hosting across the month of June, should one of these times be suitable.
LANDOWNERS AND COMMUNITY GROUPS					
Huntly mine					
Approximately 95 letters to private landowners in the vicinity of Huntly mine were sent offering an opportunity to meet and consult on the MMP.	30-May-24	Email	In response to invitation to consult landowner requested further information.	Information requested by landowner about Alcoa's future mining program in the context of the landowner's residence on Scarp Road and the potential direct or indirect impacts including: - noise from mining and blasting - increase in local traffic	Information was provided to the landowner. Alcoa invited landowner to attend one of its community information sessions its held in Keysbrook on 5 June 2024.
Community Information Sessions (Keysbrook)	6-Jun-24	face to face	As part of enhancing Alcoa's MMP consultation with the community, three open-house community information sessions were held in Keysbrook where community members and groups could consult on the MMP with Alcoa.	Nine community members raised topics related to the draft MMP as follows: - Sought to understand Alcoa's next five years of clearing in the context of where they lived - Alcoa's rehabilitation program - Potential future direct and indirect impacts from mining such as noise, dust, visibility and increased local traffic - How Alcoa is delivering on its Section 6 exemption commitments	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa.
Community Information Sessions (Dwellingup)	24-Jun-24	face to face	As part of enhancing Alcoa's MMP consultation with the community, three open-house community information sessions were held in Dwellingup where community members and groups could consult on the MMP with Alcoa.	As part of a broader discussion with a Huntly mine landowner, Alcoa discussed its draft 2025 - 2029 MMP in relation to the landowner's proximity to Alcoa's proposed future mining regions. Landowner was pleased Alcoa did not intend to mine in the LIMZ. Alcoa provided the landowner with a draft MMP consultation map and invited them to contact the business if they had any questions or feedback.	All topics discussed were addressed and no further feedback was received from the landowner.
Jarrahdale Community Consultation Network (CCN)	25-Jun-24	CCN Meeting	The Jarrahdale CCN was established by Alcoa and consists of community members, including landowners, businesses and interest groups, along with local government representatives, and provides a two-way channel for the sharing and discussion of information.	As a relatively new CCN, Alcoa provided an overview of the MMP purpose and process, and discussed in detail the draft 2025 - 2029 MMP. Attendees were provided with a copy of the MMP fact sheet and consultation map. The following topics were raised and discussed: - The clearing approvals process - Rehabilitation progress, including handing areas back to the State Government - Understanding Reservoir Protection Zones - Size of mining regions - Frequency in which the MMP is reviewed and updated	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa.
Keysbrook Community Group	16-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
North Dandalup Community Group	16-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Keysbrook Fire Brigade	16-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
North Dandalup First Brigade	16-May-24	Email	Letter of invitation to meet and consult on the 2025-2029 MMP.	No request for consultation.	
Willowdale Mine					
Approximately 100 letters to private landowners in the vicinity of Willowdale mine were sent the week commencing 16 May 2024 offering an opportunity to meet and consult on the MMP.			No requests were received from landowners to meet and consult on the MMP		
Harvey community information sessions	22-May-24	Face to face	As part of enhancing Alcoa's MMP consultation with the community, three open-house community information sessions were held in Harvey where community members and groups could consult on the MMP with Alcoa.	There were no requests by attendees to consult on the MMP	
Waroona community information sessions	12-Jun-24	Face to face	As part of enhancing Alcoa's MMP consultation with the community, three open-house community information sessions were held in Waroona where community members and groups could consult on the MMP with Alcoa.	Three community members raised topics related to the draft MMP as follows: - Approvals timeline - Mining in water catchment areas - How the Section 6 exemption conditions were being applied to the draft MMP	All topics discussed were addressed in the meeting and the feedback recorded by Alcoa.
Stakeholder	**Date**	**Type of consultation**	**Overview**	**Topics raised**	**Alcoa's response**
Wagerup / Willowdale Community Consultation Network (CCN)	12-Jul-24	CCN Meeting	The CCN group was established by Alcoa and consists of community members, including landowners, businesses and interest groups, along with local government representatives and provides a two-way channel for the sharing and discussion of information.	Alcoa provided the CCN attendees with an update on Alcoa's MMP activities. This included progress in delivering on its current MMP commitments, as well as the draft 2025 MMP. The draft consultation map was shared and used to facilitate discussions. No specific comments or feedback were received by the attendees.	Alcoa will continue to keep the CCN informed about its current and draft MMP
